#### **SUMMARY OF DEBT OUTSTANDING - Concluded**

As at March 31, 2024

The Canada Pension Plan Investment Board (CPPIB) invests funds in the Province of Ontario's non-marketable securities. Effective July 1, 2005, under a side-letter agreement signed between the CPPIB and the Province, CPPIB offered the Province upon maturity of the debentures held to the credit of the Canada Pension Plan Investment Fund (CPPIF) that were issued before January 1, 1998, an option of issuing new replacement debentures to the CPPIB with a maximum term of 30 years (minimum term of 5 years and with subsequent roll over options subject to the 30 years maximum from the date of issue of the first replacement debenture) at a rate based on capital market rates at the time of roll over.

The Canada Mortgage and Housing Corporation (CMHC) has accepted serial debentures issued by the Province in return for financing a significant proportion of the construction cost of Provincially-owned waste control facilities. The interest rate is based on the rate for the Government of Canada long-term Canadian public borrowing cost at the time that the Corporation agreed to participate in the project. Debt includes \$13.2 million of CMHC debt transferred from the Ontario Municipal Housing Corporation (OMHC) upon OMHC's dissolution in FY2020–21.

The Province of Ontario has issued to public investors in the capital market bonds denominated in Canadian dollar, United States dollar, Australian dollar, Euro, Swiss franc, and UK pound sterling.

Ontario Savings Bonds (OSBs) were first issued in 1995. OSBs are retail bonds sold by the Province to the residents of Ontario. The bonds are issued once a year and are available for sale through most financial institutions. There are three types of bonds: Variable-Rate Bonds, Step-Up Bonds and Fixed-Rate Bonds. All are available with annual or compound interest. The issuance of new OSBs was discontinued in 2019.

Under the Treasury Bill financing program, non-interest bearing Treasury Bills, with various maturities up to three years, are sold by tender on a regular basis.

U.S. Commercial Paper issues are non-interest bearing debt with maturities up to 270 days.

A School Board Trust was created in June 2003 to permanently refinance debt incurred by 55 school boards. The Trust issued 30-year sinking fund debentures amounting to \$891 million and \$882 million of the proceeds was provided to the 55 school boards in exchange for the irrevocable right to receive future transfer payments from the Province. An annual transfer payment is made by the Ministry of Education to the Trust's sinking fund under the School Board Operating Grant program to retire the debt over 30 years.

Net consolidation and other adjustments include third party debt issued by other government organizations after elimination of Provincial debt held by these organizations.

Debt Issued for OEFC: The Province, on behalf of Ontario Electricity Financial Corporation (OEFC), borrows from the Canada Pension Investment Board and issues debentures and treasury bills in the public markets. The proceeds of all such borrowings are advanced to OEFC in exchange for bonds and short term notes with like terms and conditions.

Debt issued for Investment Purposes: On April 1, 1999, under the *Energy Competition Act*, five corporations, together with their subsidiaries, were formed from the former Ontario Hydro. Ontario Power Generation Inc. (OPG) and Hydro One Inc. are two of these five corporations. In order for OPG and Hydro One Inc. to have capital structures competitive with those of other industry participants, the two companies entered into a debt-for-equity swap with the Province of Ontario. The Province assumed \$8,885 million of the debt issued by the two corporations in exchange for \$5,126 million in equity from OPG and \$3,759 million in equity from Hydro One Inc. The change in the value of the debt issued for Hydro One Inc. is the result of proceeds from the sale of Hydro One shares in 2015-16, 2016-17, 2017-18 and 2019-20.

#### References:

- 1. All debt issues are non-callable, except as stated in the notes below. Debt is payable at a fixed rate, or a floating rate with reference to a stated index. This floating rate index is Canadian Overnight Repo Rate Average. Debt is measured at amortized cost using the effective interest rate method.
- The following debt series are issued for Provincial purposes and for OEFC: DMTN223, DMTN227, KJ, LQ, DMTN259, DMTN240, DMTN262, DMTN158, DMTN164, DMTN182, DMTN204, DMTN214, DMTN220, DMTN228, DMTN231, DMTN236 and DMTN242.
- 3. The Canada Pension Plan Investment Board (CPPIB) invests funds in the Province of Ontario's non-marketable securities. Effective July 1, 2005, under a side-letter agreement signed between the CPPIB and the Province, CPPIB offered the Province upon maturity of the debentures held to the credit of the Canada Pension Plan Investment Fund (CPPIF) that were issued before January 1, 1998, an option of issuing new replacement debentures to the CPPIB with a maximum term of 30 years (minimum term of 5 years and with subsequent roll over options subject to the 30 years maximum from the date of issue of the first replacement debenture) at a rate based on the capital market rates at the time of roll over. These debentures are not negotiable or transferable and are assignable only to a wholly-owned subsidiary of the Canada Pension Plan Investment Board. On April 1, 2007, all debentures held to the credit of the CPPIF or purchased by the Minister of Finance of Canada in accordance with Section 110 of the Canada Pension Plan were transferred to the CPPIB.
- 4. CMHC: The terms of these debentures require that equal payments be made each year until their maturity. Each payment consists of blended principal and interest. Debt includes \$13.2 million of CMHC debt transferred from the Ontario Municipal Housing Corporation (OMHC) upon OMHC's dissolution in FY2020–21.
- 5. MH: The terms of these debentures require that a special one-time interest payment of 25% of the principal amount outstanding be made at maturity
